Authority Offering Media Releases Via Facsimile Transmission

Effective immediately, the Authority's Communications Department will provide releases via facsimile transmission; ensuring even more advance notice of events than previously through the U.S. Postal Service. Please make sure the Authority has your fax number and the name of your contact person for all media releases. If your enterprise is unable to accept faxed notices, please advise our staff and we will continue to provide notice through the U.S. mail.

The Arkansas Science & Technology Authority serves as a statewide funding resource for high quality scientific and technological projects. The Authority endeavors to bring the benefits of science and technology to the people and state of Arkansas through scientific research, technology development, business innovation, and education.
